**PUBLIC CONCERNS**

Tim Dumbroski stated that he was very upset with the decision that morning not to approve proceeding with a resolution that would give the residents of Springfield Township a choice of whether they would like to have a five member board of Supervisors on the ballot this November. He felt that the current research and decision making process of some members of the present board were not adequate and felt that moving to a five member board would allow for more input and debate and in a growing township like Springfield that would be a benefit to our residents. He stated that with a petition signed by 5% of the township residents he could get the choice of a five member board put on the ballot for November and that is what he would be pursuing.
